EDUCATION

Weslaco High School, Weslaco Texas

August 2019 - May 2023 GPA: 108.88

South Texas College, Weslaco Texas — Associate of Science

January 2020 - May 2023 GPA: 3.73

(In-progress) University of Texas Rio Grande Valley,

Edinburg Texas — Bachelor of Computer Science

August 2023 - December 2025 GPA: 4.0

Relevant Coursework: AI Powered Applications, Data Science, Data Structures & Algorithms, Linear Algebra, Operating Systems, Web Development

PROJECTS

Matrix and Vector Operations Library — Python

GitHub: [<https://github.com/jorgebjr28/MatrixOperationsProject.git>]

- Designed and implemented a Python library to perform fundamental matrix and vector operations
- Applied core linear algebra concepts to enable matrix transformations and vector reductions for educational and prototyping purposes.

Custom Shell Project — C

GitHub: [<https://github.com/jorgebjr28/OS-shell>]

- Developed a custom shell program in C with command execution, history management, and subshell functionality features to simulate a Unix-like shell.

Build-A-Schedule Application — Full Stack Web Application

GitHub: [<https://github.com/jorgebjr28/schedule-builder-react>]

- Designed and developed a full-stack scheduling application using **Node.js, Express, and React**.
- Implemented a backend REST API with SQLite for database operations, enabling dynamic course and instructor management.

EXPERIENCE

Automated Timing Specialist - January 2024 - Present

Employer: Robert Medrano | **Email:** stxfat@gmail.com | **Phone:** (956) 975-1477

- Manage automated timing systems for track and field events, ensuring precision and accuracy in various track and field events
- Oversee the timing process/video capture during races and competitions
- Troubleshoot any technical issues that may arise to ensure accurate and reliable results.

SKILLS

Programming Languages:

Java, C++, C, Python, JavaScript, Ruby on Rails

Agile Development, Algorithmic Thinking, Debugging & Troubleshooting

Artificial Intelligence & Data Science

Machine Learning (in progress), AI-Powered Applications (in progress)

Data Science Tools: Pandas, NumPy, Scikit-learn, R, MATLAB (by Summer 2025)

Other Skills:

Typing Speed: 85 WPM

Continuous Learner

AWARDS - ACHIEVEMENTS

AP Scholar Awarded for exemplary scoring on AP exams

Honor Roll Student Awarded for having a GPA of 90 or higher

Summa cum laude

Graduate Awarded for being in 95th percentile of graduating class,
Top 5%

LANGUAGES

English - Fluent

Spanish - Beginner

CERTIFICATIONS

Certified Entry - Level Python Programmer – 2023

Certified Entry - IT Specialist Java – 2023

Microsoft Office Specialist: Word Associate – 2022

ORGANIZATIONS

Frontera Devs — (UTRGV)

Students receive the opportunity to grow, build relationships with other students, and create solutions for real-world problems in the Rio Grande Valley.
